Summary

Streaming and DevOps Engineer with hands-on experience supporting cloud infrastructure and live streaming environments. Completed AWS Cloud Practitioner Essentials and AWS Technical Essentials, building a strong foundation in AWS core services, cloud architecture principles, and security best practices.

Experience

<u>The Pinnacle Operating Systems Inc.</u>	Mandaluyong City
DevOps Engineer	Oct 2025 - Present
DevOps Engineer focused on building skills in automating and maintaining cloud infrastructure. Actively developing expertise in AWS, Apache, CI/CD pipelines, and core DevOps tooling to support reliable deployments and improve system performance.	
<u>The Pinnacle Operating Systems Inc.</u>	Mandaluyong City
Streaming Engineer	March 2024 - Oct 2025
Managed end-to-end content delivery networks, designed and refined live streaming workflows, and worked with technologies including CDNetworks, WebRTC, Wowza Streaming Engine, video encoders, and modern web standards to improve media delivery performance and reliability.	
<u>Trend Micro Inc.</u>	Pasig City
Cybersecurity Threat Engineer	November 2022 - April 2023
Served in a probationary capacity supporting threat analysis, backup and restore procedures, and basic malware analysis, helping strengthen security measures and data protection protocols within a hybrid workplace.	
<u>Philippine Southeast Asian Games Organizing Committee</u>	Muntinlupa City
Sports Liaison Officer	November 2019 - December 2019
Served as an on-site contract officer coordinating logistics and communication for sports delegation, contributing to successful event management during the 2019 Southeast Asian Games.	

Education
